# ARE YOU A FILIPINO ARTIST?

## **OUR GOAL**

To lend a platform to elevate young Filipino talent and their creative spirit.

## **OUR OBJECTIVE**

To rally and gather all artists, artisans and performers of Filipino heritage or whose work is focused around Filipino culture, techniques or subject matter, and bring them under one roof to build a network, allow for these artists to find the space to collaborate and simply get to know each other.

As a community of creatives in the diaspora, we have the power and opportunity to not only advocate for our chosen artistic expression but also our collective traditions and cultural heritage, as it evolves through our individual experiences and identities. This is for us and for those who will come after us.

A man with glasses and a white t-shirt is sitting in a chair, playing an acoustic guitar and singing into a microphone. The background is dark with some vertical light patterns. The text 'BE UNAPOLOGETICALLY FILIPINO' is overlaid on the right side of the image.

## OUR SLOGAN “EVOLVING FILIPINO HERITAGE”

Like the Filipino identity, our heritage is a continuous story that is a combination of then and now. It is told in chapters and moves with the people. It is never stagnant. It is part of the Zeitgeist and a part of who we are. Every part of it is valid, every version is authentic, and every evolution remains Filipino.

In this festival we wish to explore ideas of identity and heritage in all its forms of evolution, especially for the European diaspora where we inhabit multiple spaces as Europeans, Filipinos and/or both. We wish to understand your identity with the heritage that’s been passed on to you and we wish to share and reflect on everyone’s in the form of your artistry and creative expression.
